MARGARET ILGENFRITZ ORCHIDS

MONROE, MICHIGAN

Adult Cattleya and Allied Genera Hybrids

Cattleya Mlle Louise Pauwels

Prices are determined by pot size, number of leads, quality of blooms, etc. All have previously bloomed. You may order in \$5.00 multiples within the price range.

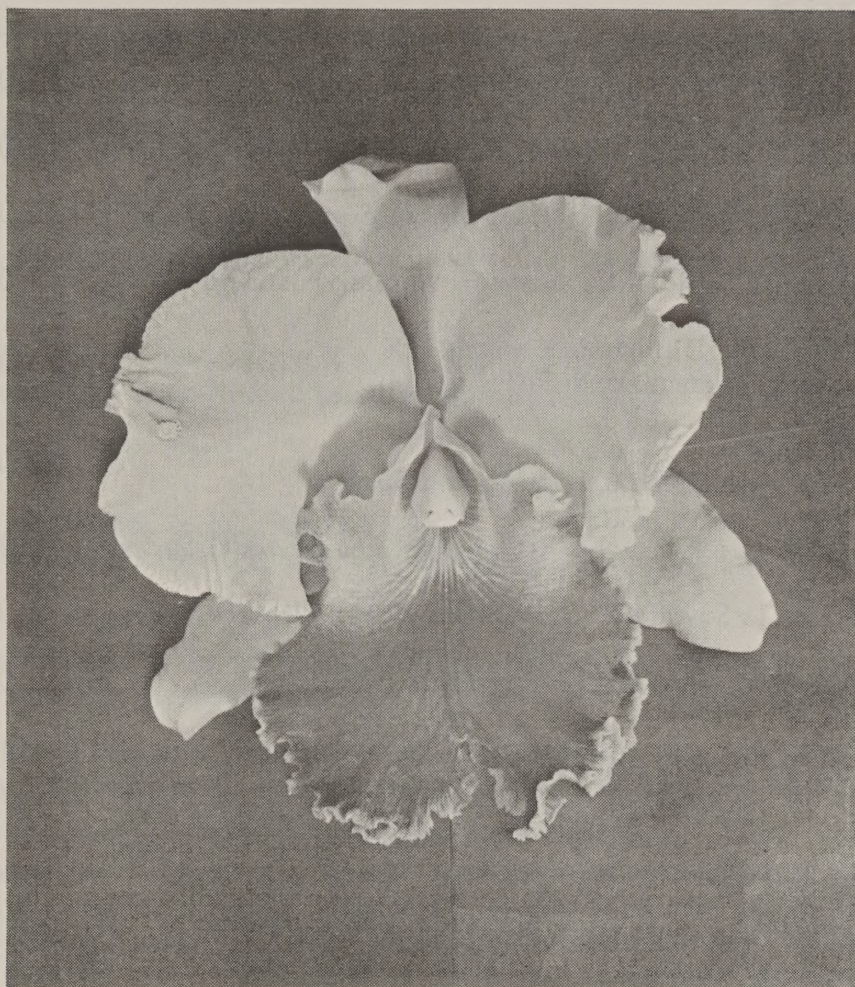

Lavenders

LC GEORGE BALDWIN (LC Princess Margaret X C. Enid) Summer	\$20.00	\$35.00
LC ARTHUR MILES (LC Sagana X C. mossiae) Spring	15.00	35.00
LC MERMOZ (LC Marie Louise X C. Remy Cholet) Dec - Jan - Feb	15.00	25.00
LC DERRYNEANE X LC SOUTH ESK - Winter and various	15.00	30.00
C. FRED SANDER (C. Fabia X C. Remy Cholet) Winter	15.00	35.00
LC WILMOSS (LC Helen Wilmer X C. Mossiae) Spring	15.00	35.00
C. ADMIRATION X LC MAGINOT Fall	15.00	25.00

LC LUDGATE X LC MAGINOT Fall	15.00	30.00
LC ERNIE PYLE (LC Altesse X C. Hardyana) Spring	15.00	30.00
LC BOIS DE BREUX (LC Gattoiana X C. Prince John) Some Salmon sepals and petals in these	15.00	25.00
LC COLONEL (LC Avignon X C. Amabilis) Summer When plants are large they often bloom again in the winter	15.00	40.00
LC MONTCALM (LC Marie Louise X C. Trimos) Spring	20.00	35.00
C. ENID C. Mossiae X Warscewiczii) Fall and various	15.00	25.00
LC DE LORIS ZIEGFELD (LC Princess Margaret X C.C.R. Cadwalader) Fall	15.00	25.00
BC PRINCESS PATRICIA (BC Cliftonii, mag. X C. Enid) Pinkish Spring	20.00	35.00
C. CLOTHO, INGLENOK VAR. (C. Enid X C. Trianae) Fall	15.00	30.00
BC PETER SLADDEN (BC Mrs. J. Leemann X C. Schilleriana) Fall	15.00	25.00
BC MME. LAURIE SLADDEN (C. Trimabilis X C. Octave Doin) Winter	15.00	30.00
C. BAHIA MAR (C. Amabilis, Slotter's Var. X C. Crepescule) Summer Fall	15.00	35.00
BC GEOFFREY HUNTER (BC Imperialis X C. Gigas) Winter	20.00	35.00
LC GAILLARD (LC Mermos X C. Trimos) Winter	20.00	35.00
LC TRIGLAV (LC Windemere X C. Titrianea) Winter and Spring	15.00	20.00
LC WALDON RIDGE (LC Monora X LC Helen Wilmer) Winter	15.00	20.00
LC BOU PHILLIPO (LC Windemere X C. Mossiae) Spring	15.00	25.00
BC WILLIS HARRINGTON (BC Marguerite Fournier X C. Triannae) Fall	15.00	20.00
C. IVA WINTERS (C. Remy Chollet X C. Cherokee) Winter	15.00	20.00
BC FRANCINETTE (B. Digbyana X Schroderae) X C. Hardyana Winter	20.00	25.00
LC EDITH WILKIE (LC Mrs. Harold Lloyd X C. Dinah) Winter	15.00	25.00
BLC JOLLITY (LC Caprice X BC Mrs. J. Leeman) Winter	15.00	20.00

Pure Whites

C. JULIA SYKORA (C. December Snow X C. Angelina) Winter	15.00	35.00
C. BENSON'S #26 X C. DECEMBER SNOW Winter	15.00	35.00
C. LOUISE GEORGIANA (C. Intermedia Alba X C. Souv. de Louis Sander) Various	15.00	35.00

Cattleya hybrid

C. RITA SLADDEN X C. BARBARA BILLINGSLEY	Winter & Spring	15.00	30.00
C. MARY SCHROEDER (C. Eucharis X C. Gretchen Merrill)	Spring	15.00	35.00
C. DOROTHY MAKAILL (C. Edithae X C. Mossiae, Wagneri)	Spring	15.00	35.00
C. JOYCE HANNINGTON (C. Barbara Dane X C. Snowden)	Spring	15.00	25.00
BC ANN SLADDEN (B. Digbyana X Mossiae) X C. Souv. de Louis Sander	Fall	20.00	40.00
C. RITA SLADDEN (C. Mme. Leten X C. Snowden)	Winter	15.00	35.00
C. BARBAR BILLINGSLEY (C. Mandanae X C. Triannae, Broomhills)	Winter	15.00	35.00
C. CELE MARKELL (C. Gravesiana X C. Souv. de Louis Sander)	Winter	15.00	30.00
C. THE SWAN (C. Edithae La Madelon X C. Mlle. Louise Pauwels)	Winter	15.00	30.00
C. MLLE. LOUISE PAUWELS	Winter - Spring	15.00	30.00
C. WHITE BLOSSOM	Fall and Winter	15.00	35.00

Semi Albas

C. ENID ALBA (C. mossiae X C. gigas) Various	15.00	30.00
LC CANHAMIANA ALBA (C. mossiae X L. purpurata) Spring	15.00	30.00
C. HAROLD ALBA (C. gaskelliana X C. gigas) Summer	15.00	30.00
C. ARDMORE ALBA (C. Enid X C. Mossiae Wagneri) Spring	15.00	35.00
BC ANN SLADDEN (B. Dignyana x mossiae X Souv. de Louis Sander) Summer and Fall	20.00	40.00
LC LOUELLA PARSONS (C. Jane Dane X C. gigas F M B) Spring and Summer	20.00	30.00
C. ELEANORE ALBA (C. Hardyana X C. gigas, M Beyrodt) Spring	15.00	35.00
LC SALCILLA (LC L. T. Savage X C. Priscilla Alba) Winter - Spring	15.00	20.00
LC EUGENE X C. MAY MARKELL Spring	15.00	30.00

In addition to the above I have many other named hybrids in limited quantities. If you have a particular variety in mind or time of bloom, I will be glad to make special quotations.

Sometimes identification tags are lost. Once this happens we make no attempt to identify the plant again. We have these unidentified plants to offer at all times, single lead plants at \$5.00 each and double lead plants at \$10.00 each. Whenever possible we ship these in bud in the sheath.

Seedlings

C-5	C. GUTTATA VAR. LEOPOLDII X C. SCHROEDERAE An experimental bifoliate cross which should produce clusters of bright lavender blooms for summer.	4"	\$7.50
C-7	B1C CHRISTOPHER GORE (B1C Jane Helton X B1C Tiara) An excellent winter yellow	2½"	4.00
C-18	C. LILY HAMPTON (C. Celia X C. Bob Betts) A pure white with various blooming times	2½"	1.50
C-23	C. JULIA SYKORA X C. ESTELLE ALBA A winter pure white - mostly holiday time	2½"	1.50
C-30	L. TENEBROSA X C. BOB BETTS Should be spring yellow	2½"	1.50
C-31	LC. ATLANTIS X C. H. J. PATTERSON A Christmas lavender of good quality	2½"	1.50
C-34	BC VELUTINA (C. Velutina X BC Digbyana) Another experimental cross which should produce blooms of considerable interest.	2½"	1.50

C-36	C. GLORINETTE SUPERBA FCC RHS X LC. COLONEL 'SCARLET ROBE' Excellent spring lavender	2½"	2.00
F-12	C. ADMIRATION X LC MAGINOT Large, medium dark color. Fall	4"	7.50
F-30	LC GEORGE E. BALDWIN X LC OLIVER LINES Medium color, dark lip and usually having yellow eyes in throat. Various	3"	3.50
F-32	LC DERRYNANE X LC SOUTH ESK Very fine large and dark. Various blooming time	4"	7.50
G-35	LC MIRABELLE VAR. NOBILIOR X POTINARA MEDEA A M RHS A fine lavender for winter	2"	1.50
G-37	BIC TEASER (BIC The Friar X LC Tantalizer) Various Medium to dark lavender of good shape and substance.	2"	1.50
G-43	C. WINNIETHA X BC FRANCINETTE VAR. HELENE WILLIAMS A pink on pink for fall blooming	2½"	3.00
H-11	LC GOLDEN JOY 'DREAM' X LC GRANDE 'JULES FURTHMAN' This should be a yellow par excellence	2½"	4.50
L-11	C. PETER SANDER X C. LOUIS MORGAN This will be a very prolific medium lavender of good size, nice shape and texture for March and April.	4"	5.00
L-12	C. EDDIE RICKENBACKER (C. Mossiae, R. E. Patterson X C. Thetis, var. Rivermont) Excellent spring lavender	3"	4.50
L-15	C. SUNRISE CHALET 'LINES' X C. BOB BETS Will be an excellent pure white for spring	3'	4.50
L-16	C. ENID 'ORCHIDHAVEN' X LC ELIZABETH Off 'very fine variety' This will be a medium to bright lavender with dark lip and fine shape and substance for fall.	3"	4.50
L-17	C. EMPRESS FREDERICK X LC JOYOUS This will be a bright medium lavender of good form, nice sub- stance and a dark lip, for spring.	3"	4.50
L-18	C. PATRICIA LINES (C. Barbara Billingsley X C. Bob Betts) A very successful December - January pure white. Prolific producer of fine flowers of excellent form and substance.	3"	5.00

- | | | | |
|------|---|--------------|--------------|
| L-19 | LC ARTHUR E. MILES
(LC Sagana 'Easter' X C. mossiae 'R. E. Patterson')
A very successful spring purple | 3" | 4.50 |
| L-20 | C. DORENE X C. SUNRISE CHALET 'LINES'
This cross will be a prolific producer of pure whites with fine shape and good substance for Mother's Day. | 3" | 5.00 |
| L-26 | C. EASTER GLORY (C. Jeanne Patterson X C. Sunrise Chalet)
A pure white of fine form, excellent substance and profuse blooming hapits - April | 3" | 5.00 |
| #138 | C. BOB BETTS X C. AMETHYSTOGLOSSA
This should be a cluster type bloom of light lavender. Various blooming time | 2 1/2" | 1.50 |
| #447 | LC GLENARUM X B1C GOLDEN GLORY
Should produce fine yellows | 3" | 5.00 |
| S-30 | PHAL. TOMMY TUCKER 'MONARCH' AM AOS
x
PHAL. GRACE PALM AM AOS
This will be a beautiful white. Should produce long arching sprays. | 2 1/2"
3" | 3.50
6.50 |

Phalaenopsis Hybrid

S-31	PHAL. DOS PUEBLOS (P. Doris 'Jean' X Grace Palm gigantic) Both parents excellent white and results here should be very fine.		
S-32	PHAL. AALSMEER ROSE BLEEDING HEART x PHAL. DORIS CAPITOLA Should produce excellent pinks.	2½" 3"	3.50 6.50
S-33	PHAL. JUANITA 'SNOWBALL' X PHAL. DORIS 'JEAN' Excellent quality large whites will be the result here.	2½" 3"	3.50 6.50
S-34	PHAL. GRACE PALM (Phal. Doris 'Jean' x Phal. Winged Victory 'Purity') An excellent Grace Palm using the very best parents	3"	6.50
S-36	PHAL. ROMONA 'PERFECTION' X WINGED VICTORY 'PURITY' An excellent white of good size and texture	2½"	3.50

Orchid Species

BIFRENARIA HARRISONAE	Stout, four angled, pointed pseudobulbs about 3 inches high with a thick coreaceous leaf about 10 inches long. Scapes are erect with one or two large fleshy flowers about 3 inches in size. Sepals and petals vary from creamy white to ochre yellow. Lip is reddish purple with deeper veins, and hairy. Culture is similar to that for Lycaste. Spring	\$7.50
BIFRENARIA TYRIANTHINA	The plant is similar to B. harrisonae but the flowers are larger and of reddish purple throughout. Lip has deeper veins. Spring	\$7.50
BRASSAVOLA NODOSA	Very narrow bulbs and a single rounded leaf, the whole being about 8 to 12 inches in height. Sepals and petals narrow and pointed, greenish white in color. Lip is white, rounded in shape. These are available in pots or on wire. Fall	\$4.50
BRASSIA CAUDATA	Pseudobulbs flattish about 4 inches in height with leaves about 10 inches long. Scapes about 18 inches long, usually produce 6 or more flowers. Sepals and petals are narrow, tail like, the lower sepals about 6 inches long, the upper half about as long. Petals are short. Lip is narrow, extending into a long tip. Color is light green, tinted yellow, spotted with dark brown on the basal portion of the sepals and petals and red brown on the lip. The lip is brighter in color than the sepals and petals. Summer	\$7.50
BRASSIA GIROUDIANA	Plant is similar to B. caudata. Scapes are longer with 9 flowers. Sepals and petals yellow green tinted, the two lower sepals about 5 inches	\$7.50

long. Upper sepal is shorter. Petals about 2 inches long, heavily spotted or covered with brown basally. Lip is sharply pointed, light yellow, the base and center spotted with brown. Crest is shaded with orange. Summer

BRASSIA MACULATA

\$7.50

Plant similar to *B. caudata* and *Gireoudiana* but bulbs are closer together. Scapes about 15 inches long bear 6 or more flowers. Sepals about 3 inches long, petals shorter. Sepals and petals greenish yellow, spotted basally with brown. Lip is spreading whitish, spotted with purple and brown centrally. Early summer

CATASETUM PILEATUM

\$10.00

Pseudobulbs are cylindrical, about 6 inches high. Erect scapes bear 6 or more large, ivory white flowers with a concave, oyster-shell like lip. Petals are broader than the sepals, inclined upwards and slightly forward. Fall

CATTLEYA AMETHYSTOGLOSSA

\$8.50

Pseudobulbs about 18 inches tall, narrow, with two leathery leaves about 6 inches in length. Flowers about 4 inches in size, in clusters of 3 to 20. Sepals and petals are bright rose, purple spotted. Lip is magenta. Spring

CATTLEYA BICOLOR

\$10.00

Very slender pseudobulbs about 15 inches high with two rather pointed six inch leaves. Flowers are about 3 to 4 inches in size, having bronze-green sepals and petals and a rose purple lip occasionally margined with white, without side lobes. Late Summer

CATTLEYA BOWRINGIANA

\$8.50

Pseudobulbs about 12 inches high, swollen at base and leaves about 4 inches long. Whole plant is olive green color. Spikes have up to 20 flowers about 2 inches in size. Rose purple overall with much darker purple color on front lobe of the lip. Throat is lighter. Fall

CATTLEYA FORBESII

\$8.50

Pseudobulbs cylindrical, about 10 inches high, with two leaves. Spikes carry up to 5 flowers about 3 inches in size. Sepals and petals are yellowish, lip yellow, streaked with red on the inside of the side lobes, on a whitish ground. Spring and summer

CATTLEYA GRANULOSA

\$10.00

Cylindrical stems about 15 inches tall. Spikes have 3 or more fleshy flowers about 4 inches in size. Sepals and petals are olive green, brown spotted. Lip is spreading, whitish, densely spotted with crimson. Late Summer

CATTLEYA GRANULOSA VAR. SCHOFIELDIANA

\$10.00

Slender pseudobulbs about 15 inches tall with two leaves. Spikes carry up to seven lovely blooms about 4 inches in size. Sepals and petals are tawny yellow densely spotted with crimson. Lip is rose purple. Late Summer

CATTLEYA GUTTATA

\$10.00

Cylindrical pseudobulbs are about 15 inches tall with two leathery leaves. Spikes carry 3 or more flowers, sometimes up to 15. The fleshy 3 inch flowers have yellow sepals and petals, spotted with crimson. The lip is rose purple. This plant needs a decided rest after growth is complete. Late Summer

CATTLEYA LUTEOLA	\$8.50
Dwarf habit with clustered, somewhat flattened pseudobulbs about 2 inches high with a single leaf about an inch long. Two inch flowers set closely on a short stem, pale yellow, the side lobes of the lip streaked with purple. Summer	
CATTLEYA NOBILOR	\$12.50
Dwarf Habit with pseudobulbs about 3 inches in height with two leaves. Flowers are about 4 inches in size and produced from leafless stems, like Walkeriana. Rose magenta in color and somewhat flat. Various	
CATTLEYA SCHILLERIANA	\$10.00
Narrow pseudobulbs with two rounded, leathery leaves, the whole heavily tinted with red. Scares usually bear two fleshy 4 inch flowers. Sepals and petals are broadly strap shaped with undulated rose-brown margins, often with darker spots. The lip is somewhat shovel shaped with reflexed margins, red purple with darker stripes and sometimes a light border. Summer	
CATTLEYA SKINNERI	\$8.50
Pseudobulbs about 12 inches tall with leaves about 4 inches long. Spikes carry 5 or more rose purple blooms about 8 inches in size. Lip is darker than sepals and petals and the throat is quite light. Spring	
CATTLEYA VELUTINA	\$15.00
Slender pseudobulbs about 12 inches tall with 2 or 3 leaves. Fragrant flowers are about 4 inches in size. Sepals and petals are orange-yellow spotted with purple. The lip is whitish tinged with yellow and veined with violet, slightly reflexed. Late Summer	
CATTLEYA VIOLACEA	\$12.50
Shown in American Orchid Society Journal for April, 1959. Plant is about 12 inches high. Pseudobulbs narrowed at both ends, with 2 leaves. Spikes bear 3 or more flowers. Sepals and petals are deep rose and lip is rich crimson. Summer	
CATTLEYA WALKERIANA	\$10.00
Dwarf plant with pseudobulbs about 4 inches in size of soft rose with a deep rose lip. Flowers on leafless growths. Winter	
CHONDRORHYNCA LIPSCOMBIAE	\$10.00
Leaves about 7 to 8 inches in length, dark green. White flowers are about 2 inches in size with purple veining in the lip. Fragrant. Sepals and petals somewhat recurved. Winter.	
CONSTANTIA CIPOENSIS	\$10.00
A very miniature plant which comes established on a piece of Vellozia which is the natural host of the plant and on which it may remain for years. This plant is commonly called, in Brazil, the white Sophronitis. Bulbs are about 1/2 inch in size and flowers are about the size of Sophronitis cernua but white. Various	
CYCNOCHES CHLOROCHILON	\$8.50
Well known Swan Orchid. Pseudobulbs about 6 inches tall with long leaves. Blooms are produced in pendulous sprays from near the top of the bulb.	

Cynoches chlorochilon

Large 4 inch flowers of yellow green with creamy white tip and a blotch of black green at the base. Late Summer

CYCNOCHES VENTRICOSUM

\$8.50

Large pseudobulbs with 5 or 6 large leaves. Racemes of flowers are from the axils of the uppermost leaves. Several large green white blooms to each raceme. Fall

CYPRIPEDIUM BELLATULUM

\$8.50

Dwarf plant with fleshy mottled leaves. Scape is short and bears shell shaped, creamy white flowers spotted and marked in a rather definite pattern, with purple. Lip is egg shaped, sparsely spotted. Summer and various

CYPRIPEDIUM CAUDATUM

\$10.00

Leaves about 12 to 12 inches long, upright. Scapes have one or more flowers of good size. The upper sepals are about 6 inches long, creamy white with greenish veins. Petals are ribbon-like, often to 30 inches in length, brownish crimson, shaded with yellow at base. Lip is bronze green. Spring

CYPRIPEDIUM CONCOLOR

\$8.50

Dwarf habit, even smaller plant than C. bellatulum. Leaves are mottled, purplish beneath. Scapes are short with one or two flowers of medium size. Light yellow is the color throughout, speckled with very minute crimson spots. Summer

CYPRIPEDIUM FAIRRIEANUM

\$8.50

Minature plant with green leaves. Single flowered and very lovely. Dorsal sepal is white, yellowish green at base, veined with purple and undulating margins. Lip is green, flushed with red and veined with purple. Winter

CYPRIPEDIUM GODEFROYAE VAR. LEUCOCHILUM

\$8.50

Dwarf plant with mottled leaves. Flowers are white with red dots on the sepals and petals. Lip is white. A lovely little flower and very long lasting. Summer

CYPRIPEDIUM NIVEUM (True Type)

\$15.00

Habit is similar to concolor but with larger, strap shaped foliage. Long scapes bear one or two satiny white flowers, rather round in shape and dotted with purple at the base of the upper sepal and petals. Summer

CYPRIPEDIUM NIVEUM VAR. ANG THONG

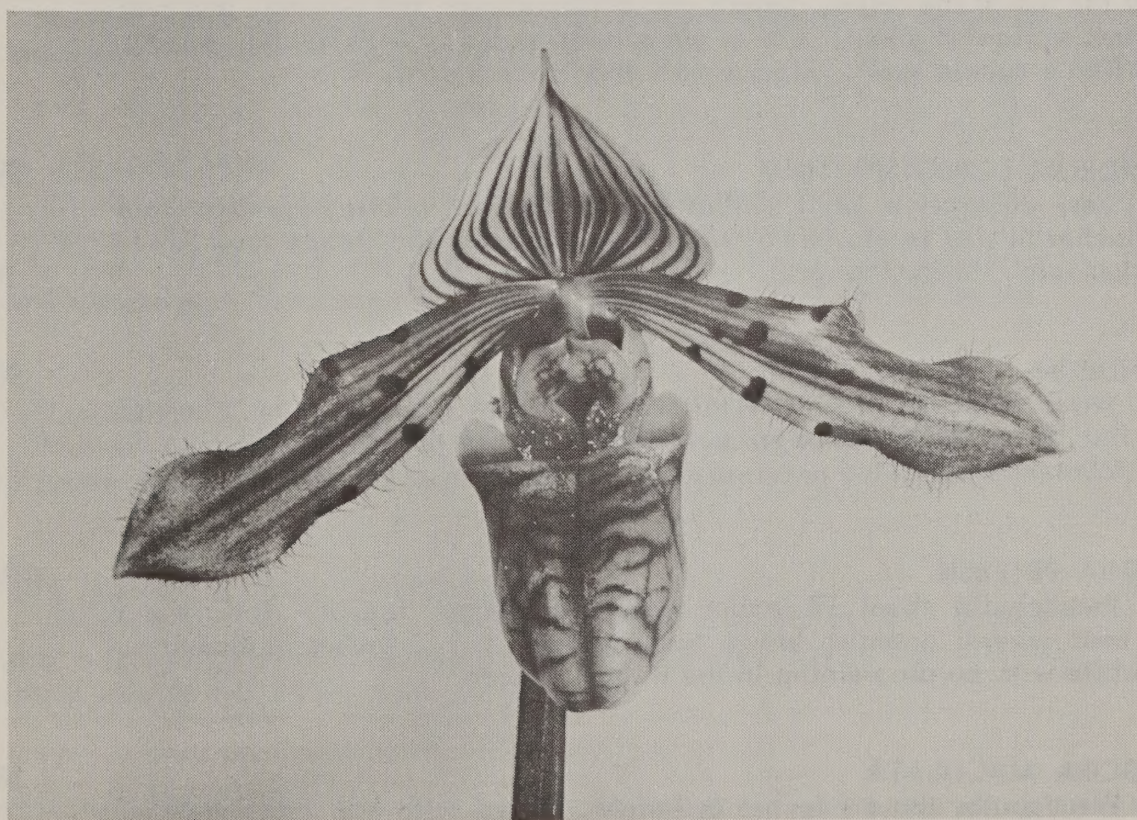

\$8.50

Another charming miniature plant similar to above. Blooms are pure white with small red dots in a nice pattern. Dorsal sepal smaller than the petals. Various

CYPRIPEDIUM VENUSTUM

\$7.50

Another mottled leaf variety, deep purple on the underside of the foliage. Dorsal sepal greenish white with purple stripes. Petals are warded with purple, purple tipped, lip yellowish, veined with green and rose flushed. Winter

Cypripedium venustum

CYPRIPEDIUM VILLOSUM	\$7.50
A green leaved species with large, glossy flowers. Dorsal sepal brown to green narrowly margined with white. The upper half of the petals is yellow brown, the lower half paler. Lip is brownish yellow. Winter and Spring	
DENDROBIUM CHRYSOTOXUM	\$10.00
Pseudobulbs 6 or more inches high, stout, club shaped. Flowers in apical lateral spikes, seven or more on each. Blooms are about 2 inches in size. Rich golden yellow, lip with deeper orange disc. Often blooms from old as well as new bulbs. Requires a rest. Spring	
DENDROBIUM THYRSIFLORUM	\$8.50
Pseudobulbs about 15 inches high. The flowers are carried in long drooping thyrses each about 1-1/2 to 2 inches in size. Sepals and petals white, sometimes pink flushed, lip golden orange. Spring	
EPIDENDRUM ATROPURPUREUM	\$8.50
Pseudobulbs about 2 inches in height with two leaves about 12 inches long. Flowers are about 3 inches in size, usually five or more on a spike. Sepals and petals green with chocolate brown markings. Lip is pure white with a light crimson blotch. Early Summer	
EPIDENDRUM CILIARE	\$7.50
Pseudobulbs about 7 inches high, usually one, but sometimes two leaves. Scapes erect, usually 3 or more flowers. Flowers are 3 to 4 inches in size, sepals and petals narrow, greenish white. Lip is pure white, three lobed, the outer lobes fringed on the outer edge. Late Spring	
EPIDENDRUM COCHLEATUM	\$7.50
Pseudobulbs about 5 inches high. Leaves are as long or longer. Erect spikes bear 5 to 10 flowers of 2 to 3 inch size. As the lower flowers drop, more open at the top of the spike. Sepals and petals narrow and twisted, inclined backward, yellowish green. Lip is deep purplish black with lighter veining, shaped like a cockle shell. Blooms more than once a year.	
EPIDENDRUM LONGISPATHUM	\$9.50
Very decorative plant similar in habit to Den. nobile. Flowers about 1-1/2 inches in size in clusters of 20 or more. Sepals and petals rose lilac. Lip darker rose. Becoming rare.	
EPIDENDRUM STENOPELATUM	\$6.50
Stems about 12 to 15 inches tall with distichous, narrow leaves. Several small, flat, pansy-like blooms are borne at the tips of the stem. Rose lilac in color. Winter	
EULOPHIA PETERSII	\$10.00
Pseudobulbs about 12 inches high with longer leaves. Tall, erect spikes bear several greenish brown blooms about 1-1/2 inches in diameter. Lip is white with purple veining in the throat. Winter	
GONGORA MACULATA	\$8.50
Pseudobulbs about 4 inches in height, ribbed with two large leaves, Scapes are drooping, many flowered, clear yellow spotted and marked with chocolate red. Spring	

- HUNTLEYA BURTII** (*Zygopetalum*) \$10.00
 Without pseudobulbs, leaves 10 to 15 inches in length. Scapes erect, single flowered with blooms 3 to 4 inches in size. Sepals and petals whitish basally, then yellow spotted with brownish yellow. The petals have a radiating reddish, basal blotch. The basal half of the lip is white, the apical portion red brown, erect, with narrow, light purple incurved teeth. Various
- LAELIA CINNABARINA** \$8.50
 Pseudobulbs about 3 inches in size, tapering with usually one leaf. Whole plant is somewhat dwarf in habit. Erect spikes carry 6 or more flowers each about 2 inches in size. I have two distinct groups, one with dark reddish flowers and the other with orange red flowers. Please specify color when ordering. Spring
- LAELIA FLAVA** \$8.50
 Very similar in habit to the above but the bulbs are usually a little taller and the leaves are larger. Erect spikes carry up to ten lovely canary yellow flowers. Spring and Summer
- LAELIA HARPOPHYLLA** \$8.50
 Very slender stems about 10 inches tall bearing a single pointed leaf about 6 inches long. Scapes usually bear 5 or more bright orange red flowers about 3 inches in size. The mid lobes of the lip is margined with white. Spring
- LAELIA PUMILA** \$8.50
 Dwarf compact habit with pseudobulbs about 3 inches in height with a single leaf. Scapes are short and bear 2 or 3 large flowers. Sepals and petals are inclined backward, rose purple. Lip is deep purplish crimson with yellow ridges centrally and a pale blotch at the apex. Fall
- LAELIA PUMILA VAR. PRAESTANS** \$8.50
 Similar to the foregoing but the lip is trumpet shaped, red purple in color shaded with yellow, ridges barely shown. Fall
- LAELIA JONGHEANA** \$10.00
 Pseudobulbs are short and stout with one and sometimes two leaves. Total height of plant about 6 inches. Scapes have one or more flowers 4 to 5 inches in size. Sepals and petals are soft rose purple, lip crisped, bordered with dark rose purple. Disc has yellow ridges. Bloom is flat. Winter and Spring
- LYCASTE AROMATICA** \$8.50
 Flowers are golden yellow, lip spotted with orange. Very fragrant. A well grown plant will produce many blooms from a flowering bulb. Winter
- LYCASTE CANDIDA VAR. LAWRENCIANA** \$10.00
 Height about 10 inches with flowers about 3 inches in size. Sepals somewhat reflexed green with red markings, petals white, rosy in center with a similarly colored lip. Very nice. Spring
- LYCASTE CRUENTA** \$8.50
 Similar in habit to *aromatica* but the flower is large and not produced in such quantities. Bright yellow with basal blotch. Spring

- LYCASTE DEPPEI** \$10.00
About 12 inches in height and bearing large flowers. Sepals and petals are pale green, flushed or spotted with red. Petals are pure white, lip bright yellow and spotted with red. Side lobes of lip are white, marked with red. An unusual and interesting species. Winter
- LYCASTE LASIOGLOSSA** \$12.00
Height about 12 inches with somewhat tapered pseudobulbs. Sepals are 2 to 3 inches, rather narrow, greenish externally, deep reddish brown on inner surfaces. Petals and lip are yellow, the lip tongue-like and covered with wooly hairs. Very unusual. Winter and Spring
- MASDEVALLIA INFRACTA** \$8.50
These should be grown in a cool, somewhat shaded spot and kept damp. Flowers are most unusual in shape with the lip rather inconspicuous. Spikes are single flowered. Upper sepal whitish with yellow shades. Lower sepals pale violet purple on white surfaces. Tails one to two inches long, yellow.
- MILTONIA CANDIDA** \$8.50
Pseudobulbs 2 to 4 inches in size with leaves about 12 inches tall. Scapes slightly taller, bear 5 or 6 medium sized flowers. Sepals and petals are chestnut brown tipped and marked with yellow, the petals having more color than the sepals. Lip is white and two purplish blotches on the disc. Fall
- MILTONIA CUNEATA** \$8.50
Similar in habit and size to *M. candida*. Scapes are longer and bear up to six large blooms. Sepals and petals are chestnut brown, topped with yellow. Lip is white. Narrow at the base, often lightly rose marked on the disc. Spring
- MILTONIA REGNELLI** \$7.00
Similar in size and habit to above but the pseudobulbs are flatter. Height is about 12 inches, scapes nearly as tall, carry up to 5 flowers. Flowers are about 3 inches in size. Sepals and petals white, sometimes rose flushed at the base. Lip is rose colored, margined with white, streaked with rose purple. Crest is yellow. Fall
- MILTONIA SPECTABILIS (On Hawaiian Tree Fern)** \$7.50
A rather creeping rhizome with flat pseudobulbs. Height of bulbs and leaves about 10 inches. Foliage is yellowish green. Scapes are usually single flowered, sometimes two. Flowers large, nearly flat, sepals and petals creamy white, rose flushed at the base. Lip is broad, spreading, rose purple with deeper veinings and lighter margin. Summer
- MILTONIA SPECTABILIS VAR. MORELIANA** \$10.00
Pseudobulbs flat oval, carried at intervals on a creeping rhizome. Usually single flowered, flat, large, a deep rich purple color. The lip veined with rose. Fall
- ODONTOGLOSSUM GRANDE** \$7.50 - \$10.00
Pseudobulbs about 4 inches in height with leaves about 8 inches, all a dull green color of quite heavy texture. Upright scapes carry four or more large, beautifully marked flowers. Sepals are bright yellow. Lip is short, nearly round, whitish or pale yellow, sparsely blotched with a red brown. A very waxy, bright flower. Fall

ODONTOGLOSSUM MACULATUM

\$7.50

Flatly oval pseudobulbs about 3 inches high and leaves about 6 inches long. Flowers are about 2 inches in size with dark brown sepals and petals, topped and marked basally with yellow. Petals are yellow spotted on their basal halves with brown. Pointed. Spring

ODONTOGLOSSUM PULCHELLUM

\$7.50

Pseudobulbs about 3 inches high with thin, somewhat grass like leaves about 12 inches in length. Erect scapes carry 6 or more very fragrant, waxy white small blooms with a yellow disc on the lip. Because of its resemblance, it is sometimes called Lily-of-the-Valley Orchid. Early Spring

ODONTOGLOSSUM ROSSII

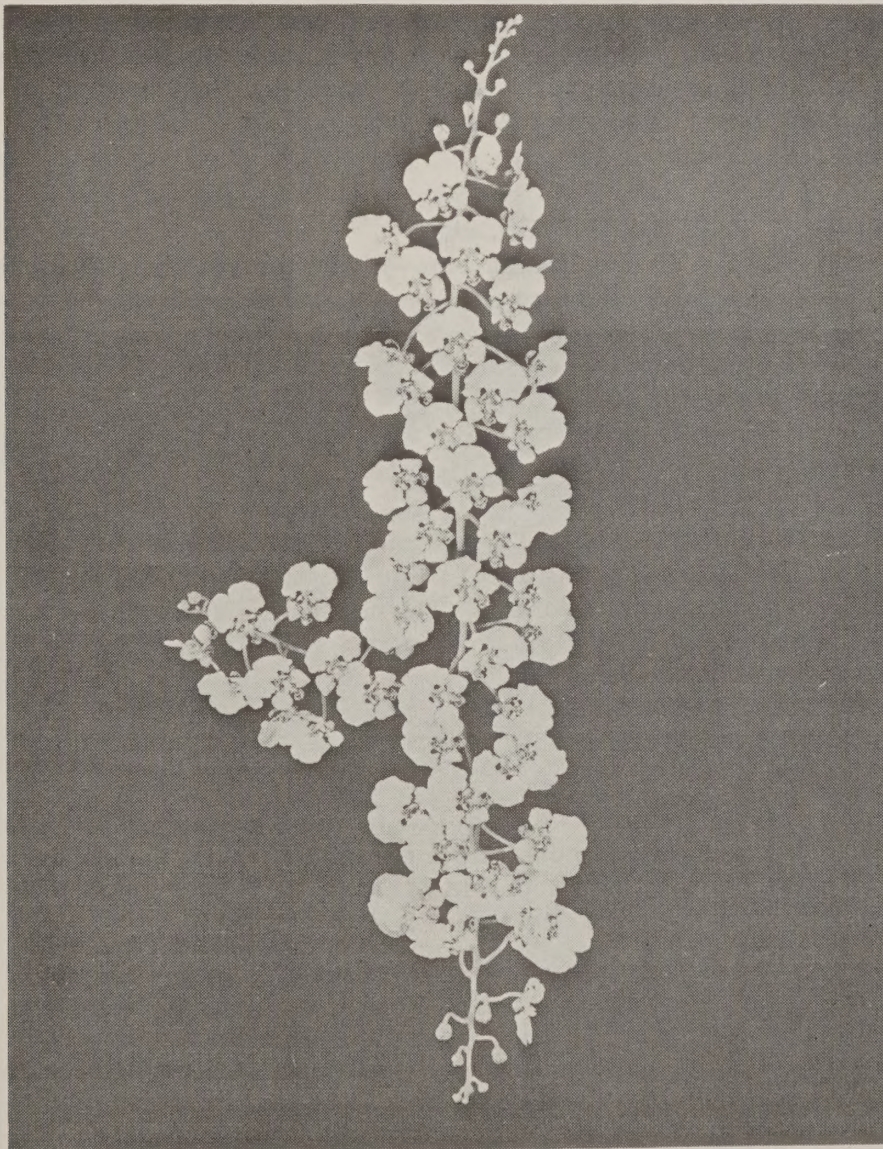

\$5.50

Dwarf plants not over 4 - 5 inches in height, sometimes smaller. Short scapes carry 2 or more flowers, sepals white or rose flushed, spotted with brown. Petals are white on the upper halves, spotted on the basal area. Lip is broad, white or flushed with rose. Winter

ONCIDIUM AMPLIATUM VAR MAJUS (The Turtle Orchid)

\$8.50

So called because the pseudobulbs are flattish and wrinkled. Long, arching, branched spikes produce quantities of bright yellow blooms of good size. Spring

Oncidium ampliatus majus

- ONCIDIUM BICALLOSUM** \$7.50
Pseudobulbless and with very stiff leathery leaves about 12 inches long. Tall scapes are sometimes branched. Flowers are medium sized, waxy, sepals and petals yellow, shaded with brown green. Lip is bright yellow, spreading. Crest is whitish, dotted with red. Winter
- ONCIDIUM CARTHAGINENSE** \$7.50
Pseudobulbs with bayonet shaped leaves of dark green spotted with red. Scapes are three feet or more long and bear small, creamy white flowers blotched and spotted with purplish rose. Very decorative. Summer
- ONCIDIUM CAVENDISHIANUM** \$7.50
Large, fleshy pointed leaves about 10 inches or more in size, dark green in color. Scapes are two feet or more long, branches at the tips. Flowers are fragrant, about 2 inches in size. Sepals and petals undulated, yellow spotted with red. Lip is bright yellow. Spring
- ONCIDIUM CHEIROPHORUM** \$4.00
Dwarf plant with small, fleshy pseudobulbs and short, narrow leaves. Scapes bear many small bright yellow, waxy flowers. Fall
- ONCIDIUM CRISPUM** \$8.50
Pseudobulbs about 4 inches in height, brownish in color. Leaves about 8 inches in height. Spikes are two feet or more long and branched. Flowers are large and very handsome. Sepals and petals are greenish brown, petals a rich chestnut brown. Lip is large rich chestnut brown, yellow spotted and marked with red at the base. Various
- ONCIDIUM CRISPUM VAR. GRANDIFLORUM** \$10.00
Pseudobulbs about 4 inches in size, brownish. Leaves about 8 inches high and broad. Scapes are 2 feet or more in height, branched. Flowers are large and handsome. Sepals greenish brown, petals rich chestnut brown, margined with golden yellow. Lip is chestnut brown with a radiating blotch of golden yellow at the base. Various
- ONCIDIUM FLEXUOSUM** \$5.50
On boards: Pseudobulbs about 3 inches in height carried at intervals on stout, ascending rhizomes. Leaves about 6 inches long. Scapes about 12-14 inches long, slender and wiry, branched at the ends. Many flowers are carried on each spike, small bright yellow marked with red. Summer and various.
- ONCIDIUM GARDNERI** \$8.50
Pseudobulbs about 3 inches in height with one leaf about 10 inches long. Tall scapes are branched and carry large handsome flowers. Sepals are rich brown barred with yellow, petals chestnut brown with marginal yellow markings. Lip is bright yellow with a marginal zone or red brown. Summer
- ONCIDIUM JONESIANUM** \$10.00
Very small pseudobulbs, round and with terete leaves tapering at the ends. Scapes are drooping and carry 12 or more flowers about 2 inches in size. Sepals and petals are white shaded with yellow and spotted with chestnut brown. Lip is broad, white and sparsely spotted with red. These are becoming scarce. Fall

ONCIDIUM LEUCOCHILUM**\$5.00**

Pseudobulbs about 4 inches high and leaves about 10 inches long. Scapes are tall, branched, arched or slightly drooping and carry many flowers, almost 2 inches in size. Sepals and petals greenish yellow, barred and blotched with dark brown. Lip is spreading. White. Various

ONCIDIUM LUMMINGHEI**\$8.50**

Dwarf plants (about the same size as *Sophranitis*) with single or two flowers. Sepals and petals green marked with brown, lip yellow. Rare. Summer

ONCIDIUM LONGIPES**\$5.50**

Somewhat dwarf in habit with small pseudobulbs and leaves about 6 inches in height. Scapes bear up to 5 flowers. Sepals and petals are reddish brown, broken and tipped with yellow. Lip is bright yellow with a whitish crest and surrounded by a reddish ring. Summer

ONCIDIUM MARSHALLIANUM**\$10.00**

Pseudobulbs about 5 inches high with leaves about 12 inches long. Scapes are three feet or more in height, branched. Flowers very large and variable. Sepals are yellow, centrally spotted with red brown. Lip is large, spreading, a very bright yellow, the base and crest spotted with orange red. A very beautiful flower. Early summer

ONCIDIUM OBRYZATUM**\$5.50**

Pseudobulbs about 3 inches high, flattish. Narrow leaves are about 8 inches tall. Scapes are erect and branched, about 12 inches tall, with many flowers. Blooms are rather small, showy and fragrant. Sepals and petals bright yellow, barred on the basal portion with red brown. Lip is clear yellow marked with orange red. Winter

Oncidium ornithorynchum

ONCIDIUM ORNITHORYNCHUM

\$7.50

Pseudobulbs are oval-oblong about 4 inches in height with leaves about 12 inches long. Scapes are arching, branched about 12 to 15 inches long with many flowers. Flowers are very fragrant, about an inch in size of soft rose lilac color. The lateral lobes of the lip are usually darker than the remainder of the flower. Crest is yellow. Winter and various

ONCIDIUM PARVIFLORUM

\$7.50

A plant of similar size of *Onc. Powellii* but with sprays of yellow and brown flowers set close on the stem. Very charming and free flowering.

ONCIDIUM PHYMATOCHILUM

\$9.50

Pseudobulbs about 4 inches high and flattish. Leaves about 10 inches long, broad. Song, branched scapes bear many flowers about 2 inches in size. Sepals and petals narrow, pointed, pale yellow or creamy white, spotted and banded with brown or red. Lip is white spotted with red around the crest. Summer

ONCIDIUM POWELLII

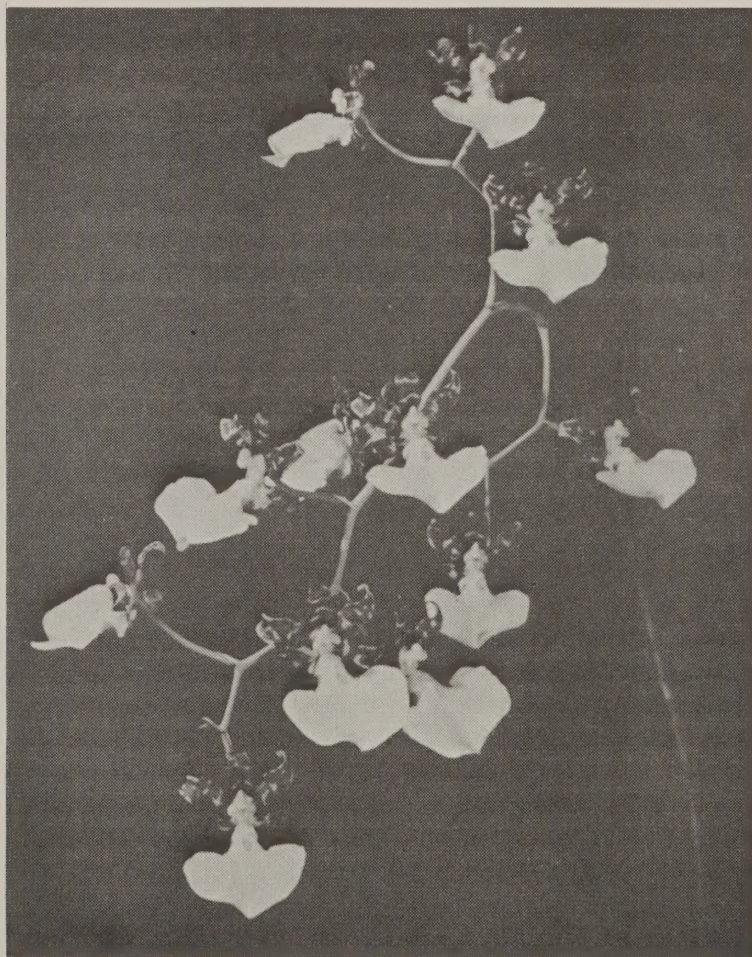

\$9.50

Dark brown flowers. The collector assured me that this is a superior lot of plants to those usually obtained. Winter

ONCIDIUM SPLENDIDUM

\$8.50

Pseudobulbs about 4 inches high with a stiff, fleshy, leathery leaf about 12 inches long. Erect scapes are branched, about 2 feet in height. Flowers are large, sepals and petals yellowish green, barred and blotched with rich brown, recurved at the tips. Lip is large, flat, clear yellow. Mid-winter

Oncidium splendidum

ONCIDIUM SPRUCEI	\$8.50
Similar habit to <i>Onc. Jonesianum</i> except the plant is larger and the leaves are larger. Scapes are tall, branching on the upper portion, with many flowers. Flowers are medium size, sepals and petals yellow, blotched with red. Lip is yellow, stained basally with red. Summer and various	
ONCIDIUM VARICOSUM VAR. ROGERSII	\$8.50
Pseudobulbs oval-oblong, furrowed about 4 inches high. Leaves about 8 inches high. Scapes are about 2 to 3 feet long, branched, and carry many flowers. Sepals and petals are yellow, barred with red brown. Lip is large, spreading, bright yellow. Winter	
ONCIDIUM WARMINGII (On Fern)	\$10.00
Similar to <i>Onc. flesuosum</i> but should be grown rather warm and dry. Spikes are multiflowered, similar in color to <i>Onc. Jonesianum</i> but smaller. Rare. Various	
ONCIDIUM WENTWORTHIANUM	\$7.50
Pseudobulbs about 4 inches high and marked with brown leaves about 10 inches long. Slender scapes are branched and carry many 1 inch size blooms. Sepals and petals yellow blotched with red brown quite yellow at the tips. Lip yellow, spotted with red brown. Summer	
ORNITHOCEPHALUS BICORNIS	\$4.50
Pseudobulbless and with very fleshy, fan shaped leaves. A miniature plant with very miniature pure white flowers slightly larger than a pin head, borne on upright sprays about as tall as the foliage. A very interesting miniature.	
PERISTERIA ELATA (The Dove Orchid)	\$7.50
Pseudobulbs about 6 inches high with long leaves. Erect scapes bear fragrant waxy white blooms about 3 inches in size. The lip is sometimes spotted with purple. Summer	
PESCATOREA CERINA (Zygopetalum)	\$10.00
Pseudobulbless with leaves about 10 inches long. Scapes are about 5 inches high. Single flowered. Flowers are fleshy, about 3 inches in size. Sepals and petals are pale, waxy citron yellow. Lip is bright yellow, crest furrowed, the ridges red and brown. Autumn	
PHALAENOPSIS LUEDDEMANNIANA VAR. BOXALLII	\$10.00
Fleshy, bright green leaves, and with yellow flowers about one inch in size, barred with chocolate brown. Various	
PHALAENOPSIS ESMERALDA	\$7.50
Leaves about 6 inches long, rounded, purplish underneath. Scapes erect, slender with many flowers. Blooms are about one inch in size, variable in color. Sepals and petals light or dark amethyst, lip three lobed, deep purple. Summer	
PHALAENOPSIS LUEDDEMANNIANA - HEIROGLIFICA	\$12.50
Shiny green leaves and dark purple small flowers barred with creamy white. Winter	

- PHALAENOPSIS LEUDEMANNIANA VAR. PULCHRA \$12.50
Similar to Heirolifica but not as dark in color. Various
- PHALAENOPSIS MANNII \$12.50
Leaves about 6 inches long spotted with violet basally. Shaded with violet at the edges. Long scapes, sometimes branched, carry golden yellow flowers, barred and blotched with chestnut brown. Lip is light yellow or white, anchor shaped. Spring and various
- PHALAENOPSIS SCHILLERIANA \$10.00
Mottled leaves are about 12 to 15 inches long, deep green, blotched with gray, purplish beneath. Scapes are two feet or more long, branched. Flowers are large, sepals and broader petals light rose purple, whitish at the margins, the lateral sepals dotted with purple on the inner basal halves. Lip is usually light in color. Crest is bright yellow, spotted with red. Winter and various.
- PHALAENOPSIS STUARTIANA \$10.00
Leaves about 12 inches long, nicely mottled with gray blotches, purplish red beneath. Scapes vary in length, branched with many flowers. Flowers vary in size from 1-1/2 to almost 3 inches in diameter. Upper sepals and petals are white, sometimes minutely spotted with purple on the basal halves, the lower sepals have their outer halves white, their inner halves yellow, thickly spotted with red purple. Lip is three lobed, the side lobes yellow spotted with red purple on the basal halves, the upper portions white, and not so thickly spotted. The mid lobe is yellowish or white, spotted with red purple. Winter
- PLEUROTHALLIS YUCANENSIS \$8.50
The plant was collected in the ruins of the temple at Tykal in Guatemala. Very narrow pseudobulbs about 3 inches in height with a single fleshy leaf. Small yellow flowers. Various
- SCHOMBURGKIA TIBICINIS \$12.50
Another species from the ruins of the temple at Tykal in Guatemala. Pseudobulbs sub-cylindrical, about 10 inches high. Leaves about 8 inches long. Scapes are three feet or more long and carry variable flowers. The sepals and narrower petals, undulate reddish or purplish brown, paler basally. The lip is white with orange yellow on the side lobes. Disc yellow. Early Summer
- SOPHRONITIS CERNUA \$6.50
Similar in habit to Soph. grandiflora but with several large blooms to a cluster. Winter
- SOPHRONITIS GRANDIFLORA \$7.50
Dwarf plant about 4 inches overall height. Scapes usually single flowered. Flowers are large, variable, sometimes 3 inches in size. Sepals and much broader petals are brilliant scarlet. The three lobed lip is the same color but orange yellow streaked with scarlet on the side lobes and at the base. Winter
- SOPHRONITIS GRANDIFLORA VAR. COCCINEA \$7.50
Flowers are larger, brilliant rose scarlet in color. Winter

TRICHOCENTRUM TIGRINUM (A Minature Plant)	\$4.50
Pseudobulbless with fleshy dark green leaves about 3 inches long, spotted with red. Usually single flowered, sepals and petals tawny brown, tipped with green, barred with chestnut brown. Lip is white. Various	
TRICHOCENTRUM ALBA VIOLACEUM	\$4.50
Similar in habit to above but leaves are bright green. Flowers are slightly smaller, the sepals and petals brownish green and with a white lip, with purple blotch on lobe. Various	
TRIGONIDIUM SEMANNII	\$5.50
Narrow pseudobulbs about 4 inches high with a single leaf about 6 inches long. Flowers are green with purple eyes.	
WARSCIEWICZELLA VAR. WAILESIANA (Zygopetalum Wailesianum)	\$10.00
Without pseudobulbs, leaves narrow, 6 to 9 inches long. Scapes single flowered about 1-1/2 to 2 inches across, sepals and petals creamy white, lip white, stained on the disc with violet blue. Autumn	

Orchid Supplies

SILVA BARK - Weyerhaeuser Lumber Co.

YOUR FIRST ORCHIDS AND HOW TO GROW THEM

A publication of the Oregon Orchid Society. Proper growing instructions for all the popular orchid species and hybrids is contained in this very complete, well written booklet. Several color plates, many black and white plates and sometimes drawings are included.

\$2.00 each
postpaid

HOME ORCHID GROWING by Rebecca T. Northen

Revised and enlarged edition of this very informative book on orchid growing.

\$10.95 each

Terms of Sale

All plants are in good condition when they leave my hands. Any damage in shipment must be reported immediately to the carrier. During the winter months it is well to open packages in the presence of the deliveryman so that he can see the packing. Frost damage does not always show immediately when the package is opened. It may take 24 hours to show after the plants reach room temperature.

When shipments are turned over to a public carrier they become your property; claims for losses must be filed immediately with the carrier, not with me. I am always glad to provide any information so that your claim will be honored. The inspector will want to see all packing material.

All prices are F.O.B. Monroe, Michigan unless otherwise stated. The plants may usually be shipped by parcel post, special handling, except during the months of December, January and February, when express shipment is recommended. However, large orders or expensive plants should always be shipped by express. You may specify method of shipment. If parcel post is requested please include 75¢ per plant extra with your remittance. Any difference will be promptly refunded or billed. Express shipments are sent collect unless other arrangements are made.

Michigan residents please add 4% sales tax.

The greenhouse is open Monday through Saturday from 8:00 A.M. until 5:00 P.M. and on Sundays by appointment. The greenhouse is at the end of Blossom Lane, off East Front Street. From the Detroit-Toledo Expressway take the Front Street exit and go west to Blossom Lane, about one and one-half miles from the expressway.

DISCOUNTS	\$100.00 - \$200.00	10%	The discount applies to plants only. It may be taken in cash or in plants.
	\$200.00 or more	20%	

NON-WARRANTY

I, Margaret Ilgenfritz, give no warranty, expressed or implied, as to the productivity of any of the plants I sell, and will not be in any way responsible for the crop. My liability, in all instances, is limited to the purchase price of these plants.
